

MUKHAMMADRIZO ABDUNAZAROV

FULL-STACK WEB DEVELOPER

mukhammadrizoabdunazarov@gmail.com | [GitHub](#) | [LinkedIn](#) | [Twitter](#) | [Portfolio](#)

SUMMARY

I am a Full-stack software developer trained at Microverse. My work focuses on designing fun apps that allow the user to return to the product. As a fast learner and having created more than 10 apps using dual programming in Microverse, in this Bootcamp I have mastered working remotely under various partners and industry standards. I am fluent in English and my communication skills are well-tuned. My flexibility and ability to learn to make me a great asset to any team and in any project. I am always looking for ways to improve my skills and achieve great goals.

SKILLS

Front-End: JavaScript, React, Redux, jQuery, HTML5, CSS3

Back-End: Ruby, Rails, MySQL

Tools & Methods: Git, GitHub, Ubuntu, Heroku, Netlify, Mobile/Responsive Development, RSpec, TDD, Chrome Dev Tools

Professional: Remote Pair-Programming, Teamwork, Mentoring, Communication, Critical Thinking, Problem Solving, Organization Skills, Time Management, Work Ethic, Attention to detail, Adaptability, Prioritizing

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS

Full-Stack Web Developer

Remote
November, 2021 – Present

[Hollyflix](#) – You can view the details of the movies and write your opinion in the comments, and also set the time. In a team of three people, we built this app based on a kanban board plan.

- **Built with:** JavaScript(ES6/Webpack/modules/tests), HTML5, CSS3, API | Live Demo

[2022 G20-Bali summit](#) – This website for the 2020 G20 Summit uses a style with ECMAScript 6 functionality and a sleek design.

- **Built with:** JavaScript(ES6), HTML5, CSS3 | Live Demo

[To-Do-List](#) – This application is interactive. The user is also able to mark task completion by selecting the corresponding checkbox (or undo it by unchecking the checkbox). The updated tasks list will be stored in local storage.

- **Built with:** JavaScript(ES6/Webpack), HTML5, CSS | Live Demo

MICROVERSE

Mentor (Volunteer)

Remote
January, 2022 – Present

- Mentoring 3 junior web developers monthly on a 1:1 basis, providing technical support through 15+ code reviews every week
- Proposing improvements to code organization to improve code quality and overall performance.
- Proposing advice and tips on how to maintain motivation to maintain longevity in the program.

EDUCATION

MICROVERSE

Remote Full-stack Web Development Program, Full Time

November 2021 – July 2022

- I spend 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux. I communicated well with people and complete my work completely, qualitatively, and on time.
- Developed skills in remote pair-programming using GitHub, industry-standard git-flow, Test Driven Development, and daily standups to communicate and collaborate with international remote developers.
